### DEFINITIONS:

Subject Area and  
Catalogue Number  
Class Number

A 4-letter subject area code plus a 4-digit catalogue number make up the course code, e.g. **BIOL 1033**. You can search for courses by using this code.

Enrolment Class

A class number is a unique number used to identify individual classes held during a specified study period. You can use class numbers to enrol, starting with the class number of the enrolment class.

Related Classes

An Enrolment Class is the first class you enrol in for a particular course. This can be a lecture (LEC), tutorial (TUT), workshop (WSH), practical (PRA) or external (EXT). There may be multiple enrolment classes to choose between. All other classes will be related to the enrolment class and will display once you select your enrolment class.

Auto Enrol Class

Related classes are other components (i.e. a tutorial or practical) that make up the course. In some cases, you may be automatically enrolled into a particular related class that is associated with the enrolment class you selected.

External Class

In some courses, once you select the Enrolment Class, you are automatically enrolled (Auto-Enrol) in a second (related) class (e.g. by choosing a tutorial you are automatically enrolled into the lecture). You may still be required to select another related class to complete your enrolment.

The external class number will be listed in the Classes column below. This number is the only enrolment class number you need to enter in 'Manage my Enrolment' when enrolling.

Second Semester (Study Period 5)				
Subject Area	Catalogue Number	Course Name	Classes	Notes
ARCH	4008	<u>Advanced Architectural Design Studio (Construction)</u>	Enrol in the lecture ( <a href="#">53638</a> )	Enrol in the lecture and you will automatically be enrolled in the studio (53005).
AND				
CREA	5001	<u>Research Practices (Creative)</u>	Enrol in the lecture ( <a href="#">53653</a> )	You will be automatically enrolled into the associated Seminar (Class 53006)

		* Elective		
<p>* Choose one stream from the 4 (four) elective streams below. Each elective stream consists of a range of electives. In selecting an elective stream, each student must complete a minimum of 2 (two) of their electives in one of the streams. To select an elective stream, simply enrol in one of its stream electives. Elective streams and other electives are summarised below:</p> <ol style="list-style-type: none"> <li>1. <u>Design and Construct</u> Elective stream</li> <li>2. <u>Planning and Urban Design</u> Elective stream</li> <li>3. <u>Sustainable Design</u> Elective stream</li> <li>4. <u>Construction and Project Management</u> Elective stream</li> </ol> <p>Further information on electives can be found under the Electives tab on the Bachelor of Architectural Studies/Master of Architecture learnonline program site here: <a href="https://lo.unisa.edu.au/course/view.php?id=9939">https://lo.unisa.edu.au/course/view.php?id=9939</a></p>				

#### NOTES:

1. The table above shows the full list of courses to be taken by a student undertaking a full-time load solely in this year of the program.
2. Students enrol in all courses for both study periods (Study Periods 5 & 2) at the commencement of their studies.

3. Please ensure you check the course timetable to confirm the location and possible external mode offering for each course.
4. **If you have a Study Plan, please bring it to your enrolment session to assist with enrolment.**

## **PART TIME STUDENTS**

You can study part-time which means undertaking less than the load specified for full time status.

**(Full-time load** - The standard annual full-time load is 36 units or 1.0 EFTSL (Equivalent Full-Time Student Load). A student undertaking at least 75% of a full-time load for the academic year will be full-time for that year. A student who is undertaking at least 75% of a full-time load, for either the first half or second half of the year, will be full-time for that half year).
