Animal Scientific Names

Use the table below to find the scientific name of your animal

			
Morelia viridis	Phyllobates bicolor	Rhinella marina	Ophiophagus hannah

If you find an animal that doesn't have a scientific name, and it is not on your classification sheet you have discovered a new species!

Draw and describe your new animal, then give your new discovery a scientific name.

See how many species you can find and don't forget to get your worksheet signed.
