Creating Course Media

WHY?

For the learner :
Convenience Flexibility Engagement

For the academic :
Presence Pedagogy Profile

Follow the steps to transform PowerPoint presentations into engaging media

Identify the key concepts in your presentation.

Do the concepts need annotation to be fully explained?

YES

? Are you confident to appear on camera, speaking as you annotate the content to explain the concept?

YES
Consider making short videos, videos can be embedded in iSpring presentations or stand alone.

Consider using the transparent whiteboard to record a concept video where minimal annotation is required

NO
Consider using narrated animation software, e.g. Videoscribe or screen capture software.

Consider using an interactive whiteboard to record the concept video, e.g. Smartboard Tools

NO

? Are images/diagrams or audio needed to explain the concept?

YES
Consider using iSpring Pro to prepare an audio narrated presentation to explain the concept.

NO
Consider embedding suitable media from other sources to illustrate and elaborate concepts.

Consider making some voice recordings (podcasts) to explain the concept.

? Video Recording Options

Self directed	Supported
