

Vocabulary: linking words and phrases

Linking words and phrases are the glue that helps to hold your writing together. For example, read the short passage below:

Readers are often critical of film adaptations of novels which change the source material in major ways. Fidelity is not a suitable measure for judging a film adaptation’s success, as numerous scholars agree (Desmond & Hawkes, 2006; Leitch, 2008). Reviewing film adaptations is, Whelehan (1999, p. 9) contends, an “inexact science dogged by value judgments about the relative artistic worth of literature and film”.

Now look at that same passage with two minor additions:

Readers are often critical of film adaptations of novels which change the source material in major ways. **However**, fidelity is not a suitable measure for judging a film adaptation’s success, as numerous scholars agree (Desmond & Hawkes, 2006; Leitch, 2008). Reviewing film adaptations is **ultimately**, Whelehan (1999, p. 9) contends, an “inexact science dogged by value judgments about the relative artistic worth of literature and film”.

Those two additions – **however** and **ultimately** – help to improve the flow of the paragraph: **however** indicates a change in focus, while **ultimately** signals that the discussion is coming to an end.

Linking words and phrases help guide the reader through your assignment; telling them when to stop, slow down, start, turn left etc. Below are some linking words and phrases you can use in your writing.

To introduce an author’s voice into your writing, e.g., to move to a direct quote or paraphrase

<p>Advises Agrees/Disagrees Argues Asserts Believes Concludes Declares Explains</p>	<p>Notes Observes Proposes Recommends Says States Suggests Writes</p>	<p>Example: Smith (2013) argues that...</p>
---	---	---

To connect words and clauses together

<p>And Or Because But</p>	<p>While Since So</p>	<p>Example: The results were ambiguous because of variables in...</p>
---------------------------------------	-------------------------------	---

To extend a train of thought or to list a number of items one after another
