

Jamtek Structural

Undergraduate Engineering Internship

Location: Adelaide

Who can apply: Domestic & international students studying Engineering

(civil/structural)

Type: Full time/ part time (flexible), unpaid with potential to transition directly

into a paid graduate role.

Dates: Start and end date negotiable

About the company:

Jamtek Structural is a contractor offering complete civil and structural packages integrating our core in-situ concrete works with earthworks, supply and installation of structural steel and/or precast concrete, caulking, jointing, applied coatings as well as project management.

About the role:

Jamtek Structural are seeking an Engineering or Construction Management student keen to learn and get firsthand industry experience in a civil and structural company which has been operating for over 20 years. Jamtek is open providing working experience to a student who has yet to complete their mandatory work experience requirements, or potentially a full-time graduate role to a student who has completed their work experience.

This industry experience opportunity will assist the student to gain the following knowledge, skills / experience:

 Analysing and reviewing drawings and specifications – then relaying the details to the site team to ensure the project is constructed in accordance with the project documentation, including site inspections prior to, during and at the completion of works

- Quality assurance documentation and record keeping ITPs, concrete registers, testing results etc.
- Procurement tasks to ensure construction projects remain within budget and to programme – such as ordering concrete, reinforcement, concrete pumps and assisting with the arranging of various subcontractors
- Quantity surveying for existing projects to help track project production rates and costings. Quantity surveying and assisting with the tendering of new projects

Application Process:

Email your Resume, Cover Letter and Academic Transcript to accounts@jamtekstructural.com.au

Applications close 31st August 2025.
