

## **Kick-Start Your Engineering Career with Romeo Engineering Consultants!**

### **Opportunity for Professional Practice Program Hours**

Location: Mawson Lakes

Who for? Undergraduate Civil Engineering Students

Details:

- Commencing January 2026!
- Potential for ongoing employment
- Full Time / Part Time – flexible

#### **At Romeo Engineering Consultants, you'll have the chance to:**

- Work on real civil and structural projects — from concept design to on-site inspections
- Apply your technical knowledge to meaningful engineering challenges
- Learn directly from experienced professionals who are passionate about mentoring future engineers
- Grow your confidence in drafting, design software and practical problem-solving
- Build your professional network and enhance your employability

#### **What You'll Experience:**

- Structural and Civil design of a range of residential and commercial projects
- Exposure to Australian standards, codes, and professional engineering practice
- Site visits, project meetings, and hands-on technical skills
- A supportive, collaborative team environment

#### **Who They Are Looking For:**

Motivated students studying:

- Civil Engineering
- Structural Engineering

If you're eager to learn, enthusiastic about engineering, and ready to see how real projects come to life, they want to hear from you!

**Duties:**

- Site/client meetings
- Footing trench inspections
- Footing reinforcement inspections
- Civil design
- Residential footing design
- Structural steel design
- Becoming familiar with relevant Australian standards
