

Graduate Certificate in Breast Imaging Study Plan

Student	Name:	Student ID:	Commencement: SP5 2023
UniSA Program	UniSA Allied Health & Human Performance		Total Units: 18.0 core units
	Program Code: ICBR	Total Program Years: Minimum 1 year part-time	Total Courses: 4 courses = 18.0 units

Suggested study plan for two courses (9.0units) per study period

#With program director approval

Note – Often students choose to enrol in one course for some study periods whilst they are gaining confidence and competency in clinical ultrasound.

Courses	Units	Subject Area + Cat No	Prerequisites	Comments
2023				
Study Period 5				
Professional Issues for Sonographers	4.5	RADY 5024	nil	SP2 or SP5
Ultrasound Physics and Instrumentation ¹⁺⁴	4.5	RADY 5030	nil	SP2 or SP5
2024				
Study Period 2				
Breast Sonography ^{3+4 +5}	4.5	RADY 5002	RADY5030 (course can be completed alongside RADY 5030)	SP2
Study Period 5				
Mammography ²	4.5	RADY 5003	nil	SP5

* Note: Courses may or may not be scheduled in each semester. Please refer to the online course timetable for further details. Rules & notes can be viewed on the program homepage <https://study.unisa.edu.au/degrees/2022/183-742>

Rules

- Credit will be given for this course on provision of proof of satisfactory completion of the Diploma of Medical Ultrasonography Part 1, awarded by the Australasian Society for Ultrasound in Medicine within 5 years prior to enrolment in the program.
- This course requires all students to attend an intensive one-week workshop on campus. Enrolment is limited to 10 students.
- Participation is required in clinical placements where students are required to physically handle people including lifting and supporting people with disabilities.
- Student must be involved in performing diagnostic breast ultrasound examinations, including interventional procedures
- If the student is performing these examinations from the start of their enrolment in ICBR, with a supporting letter from their supervisor they can enrol in RADY 5030 at the same time as RADY 5002 prior to completion of RADY 5024

It is important that you as the student check this plan against your student portal, if you notice an error please let me know by return email.
