Course Comments

Best Aspect

Term Code	Program Code	MCE Comment
SP5 - 2021	IGSO	Being online, it can be flexible. Recorded videos allow us to watch recordings when we are available and rewatch it if we choose to.
SP5 - 2021	IMSO	This course has provided me a lot of higher knowledge on vascular sonography as well as physiologic testing.
SP5 - 2021	IMSO	Very interesting and broad topics. As a paediatric sonographer that already dabbles in some vascular, I feel a lot more confident in my vascular knowledge and skills following this course.
SP5 - 2022	IGSO	Everything was well laid out and organized well in the learn online pages, from the modules to the assessments and quizzes. A weekly update was given every week to ensure you kept on track of what was required from you.
SP5 - 2022	IGSO	Directly related to clinical work
SP5 - 2022	IMSO	Very well organised/ easy to follow, interesting modules and found the assignments great/ learnt from other students presentations as well

SP5 - 2021	IMSO	I felt like if it wasn't for the time restraint (which i understand must be in place), I could have demonstrated more of my knowledge in the final exam. I guess my slow typing got the better of me. I stupidly tackled the final exam with the same time pressure I felt in the previous quizzes. Retrospectively, i understand this was the error of my ways. Maybe a notice to the next students not to get carried away with short answers, or even have a word limit in that? or warning the timing of the quiz and the final exam differs. Again, the fault lies with myself.
SP5 - 2021	IMSO	Feedback or review on online quiz were not available for me to review my own answers. This can be improved so that the student will be able to know where requires more attention during the study.
SP5 - 2022	IGSO	This course was great, maybe for the module lecture presentations a copy of the slides would be helpful so when taking notes, you can add them to existing slides. Otherwise, everything is excellent.
SP5 - 2022	IMSO	N/A
