Best Aspect

Term Code	Program Code	MCE Comment
SP2 - 2021	IBHL	I particularly enjoyed the way this course used a combinations of real-world examples and hypothetical scenarios one could easily see themselves being confronted with, to highlight the value of understanding ethical issues, principles and theories. I believe this practical application of theory helped to facilitate a much deeper understanding of the content being taught. Additionally, the conversations that arose during weekly workshops were thought-provoking, fascinating, and ultimately very enjoyable.
SP2 - 2021	IMHM	Will get an overview of the ethical practices
SP2 - 2021	IMHM	I found this subject really interesting as it connects the ethics with the clinical aspect. Being a clinician it was intriguing to get to know about the relation of ethics in health.
SP2 - 2021	IMSO	A very enthusiastic and engaged lecturer and a responsive and helpful course coordinator
SP2 - 2023	ICHS	I loved the weekly online class and loved the ability to go into breakout rooms to discuss topics with other students
SP2 - 2023	IMHM	It gave us the thought provoking ideas
SP2 - 2023	IMHM	Connal is the strength of this course because Health Ethics is a boring course, but it was manageable with Connal. Thank you!
SP2 - 2023	IMHM	There no right or wrong answers. They will not question your answers since this is your personal opinion.
SP2 - 2023	IMHM	It views and accepts different perspectives. I like the forum discussions, it creates an avenue for learning and the opinions of others help me reflect on my opinion as well.
SP2 - 2023	IMHM	Health to distinguish between our own choice and ethical considerations.
SP2 - 2023	IMHM	EVERYTHING WAS GOOD ABOUT THIS COURSE
SP2 - 2023	IMHM	In my point of view it's a great course it will help us in the future .
SP2 - 2023	IMHM	More documents need to include in the student portal such as some discussion and PowerPoint presentation etc.
SP5 - 2022	IMHM	Plenty of resources to help develop understanding of the topics. I liked the podcast concept and the structure of the online tutorial as more of a discussion than a structured lecture.
SP5 - 2022	IMHM	Health Ethics helped me to understand the ethical theories and methods, as well as my ability to analyse problems in public health.
SP5 - 2022	IMHM	We always had good discussions during class. The case studies were helpful for me to further understand the theories.
SP5 - 2022	IMHM	Information on ethical decision making
SP5 - 2022	IMHM	all good
SP5 - 2022	IMSO	The material is great and I loved the availability of group interactions through the forum and the weekly online discussion (although I was unable to attend) it was made available online so I could still listen to discussions.

Need Improvement

SP2 - 2021	IBHL	The only thing I would suggest is potentially making it more clear the podcasts were equivalent to lectures and thus essential to understanding the course content, and make them easier to access - perhaps putting them on the course home page each week, for example. If there is also a way to get more people involved in the weekly conversations during workshops, I feel that could also add to the experience.
SP2 - 2021	IMHM	Better and ethical marking system.
SP2 - 2023	ICHS	no its fabulous
SP2 - 2023	IMHM	NA
SP2 - 2023	IMHM	I don't think so it's good f
SP2 - 2023	IMHM	Can include more of video examples
SP2 - 2023	IMHM	None.
SP2 - 2023	IMHM	Consider changing the 2-hour class to 1 to 1.5 hours. Consider also excluding breakout rooms, some students do not participate and it's unfair for those who participate.
SP2 - 2023	IMHM	More visual materials could be included in this course so that students can understand easily.
SP2 - 2023	IMHM	Please remove this as an external class. It's not easy to learn ethics online.
SP2 - 2023	IMHM	No
SP5 - 2022	IMHM	Perhaps provide more visual teaching materials?
SP5 - 2022	IMHM	I would have liked a bit more written content to support the recorded podcast and online tutorial. This would have made it easier for me to understand what the key concepts and discussions points were for each topic
SP5 - 2022	IMHM	more reading material and practical application
SP5 - 2022	IMHM	None.
SP5 - 2022	IMHM	all good
SP5 - 2022	IMSO	For me as a distance education student studying part time whilst juggling a career and personal life I found the structure of this course less flexible than other courses. My other commitments mean I will do large sums of work one week then other weeks be unable to do anything. This left me a bit behind on the discussions on forums some weeks. I also found it really difficult in the group assignment, being grouped with full time students- it did not suit them to start the assignment early due to their study schedules but it was very difficult to manage my time as a distance student in the last week or two to get the presentation done. I didn't mind working as a group and there were definitely advantages to it but overall as I said as a distance student doing a masters on top of career and family life the course seemed overall less flexible than other courses I've studied where all students are through distance education.
