Course Comments

Best Aspect

Term Code	Program Code	MCE Comment
SP6 - 2022	IMSO	- course flexibility with the option to choose your own research topic and design type - face to face interactive zooms were very helpful to clarify items - forums were also a great way to discuss and ask questions with both course coordinator and peers - gives an insight into the processes involved in research design, a good starting point if you were to go further - weekly online lectures were helpful and saving the PDF slides were great for a quick reference guide
SP6 - 2022	IMSO	I really like how the assessments have been structured and that the first two assessments lend themselves to the final assessment of a research proposal. The course has changed research for me. I always felt that it would be a too big an undertaking and that I would never be able to attempt any meaningful research. The course has really helped me understand research design in bite sized pieces - maybe it wouldn't be so scary and unachievable... There seems to be sufficient time between assessments. I enjoyed the pre-recorded weekly lectures and how the study period was scheduled out. It is extremely organised, which I appreciate as I am trying to fit my Masters study into an already very full life of work and family.
SP6 - 2022	IMSO	Very thorough coverage of the beginnings of learning about Research. FULL of information, but also very logically laid out to a non/beginner researcher.
SP6 - 2022	IMSO	Marie is the main strength of the course. She provides constructive feedback and encourages questions. Her lectures clear and easy to follow. The regular zoom sessions are very important to test run ideas. I would not have had the great experience I did without her.

Need Improvement

SP6 - 2022	IMSO	No.
SP6 - 2022	IMSO	- I found the statistics lecture to be unhelpful, it was prerecorded from a previous year. perhaps some more direction with clearer statistical analysis procedures or useful websites ...
SP6 - 2022	IMSO	No ways that I can think of.
