

WHAT'S THIS?

$$8(6n - 4) - 20 = -4$$

n =

$$\frac{2a + 7}{13} = 1$$

a =

$$\frac{h - 4}{2} + 4 = 7$$

h =

$$2\left(\frac{d}{3} + 6\right) = 20$$

d =

$$6(e + 8) - 3 = 9$$

e =

$$4(3t - 7) = -52$$

t =

$$9 = \frac{5p - 7}{2}$$

p =

$$\left(\frac{L}{4} + 7\right) \div 5 = 1$$

L =

3	12	-6	3	12	-6	-8	-6	5	10	3	1	-2
